OBJECTIVE

A dedicated, experienced developer with more than 4 years of both web and mobile application development. This experience combined with an aptitude for modern programming languages is listed below my "skills". Adding values with a purposedriven mind to ensure the satisfaction of my clients/employer is a priority. Hardworking and thorough with a passion for an innovative, highly effective team. Feel free to check my website: https://tom-portfolio.onrender.com

EXPERIENCE

The BEMSGROUP   18 March 2023 -
Fullstack Developer
Currently a full-stack developer for the BemsSoft, a subsidiary of the BemsGroup.

I developed Bems Institute and Vocational Studies (bemsinstitute.com), with help from my team and collaborations.

PU & Sons Computer   2014 - 2019
Software / Hardware Technician
I worked as a gadget technician for 5 years, fixing mobile phones, laptops and tablets. I have in-depth knowledge of the computer system and all the "know-how" of it.

Bems Institute of Technology and Vocational Study.   April - August
Fullstack web development tutor.
An instructor in BITVs. Taught over 24 students full-stack web development using HTML, CSS, JavaScript, Nodejs, Firebase and MongoDB.
